

An aerial photograph of a small, rocky island in the middle of a dark blue sea. The island is covered in grey rocks and patches of green moss or algae. Several buildings with orange roofs are scattered across the island. A wooden pier extends from the island into the water. The overall scene is serene and remote.

# We own, operate and develop regional & local distribution networks

**72,000**  
km power lines  
distribute 26.8  
TWh electricity

**930,000**  
homes and  
workplaces

**99.98%**  
reliability

**3,000**  
people  
employed, of  
which 420 own  
employees

**1 M€**  
investments  
2016-2019

An aerial photograph of a rural landscape. The scene is dominated by vibrant green fields, some of which are divided by a network of grey roads. In the upper right, there is a distinct rectangular field with a darker, brownish-green texture, possibly a different crop or a field in a different stage of growth. In the lower right, a small, single-story house with a reddish-brown roof is visible, situated near a road. The overall lighting is bright, suggesting a clear day.

# Vision.

A bright and sustainable future.

# Our assignment – Mission.

We improve quality of life by ensuring a long-term sustainable and reliable power network.

**ELLEVIO**

Vi bring  
electricity to you

# Our values

**Reliability** – above all, you should be able to rely on our electricity network and the people who work here. We are here when you need us and we have the technology and the skills necessary to supply electricity to your home.

**Commitment** – we care about and listen to our customers and our stakeholders. We demonstrate initiative and act in a sustainable manner.

**Development** – we innovate in areas small and large, we constantly develop and improve ourselves and we welcome feedback. We seek out new knowledge, we share what we know, and we build our electricity networks so that they meet the energy needs of the future.

# Our distribution networks

## Västra Svealand-Västergötland

132,000 customers  
25,000 km power lines  
188 meter power lines/customer  
600 jobs

## West Coast

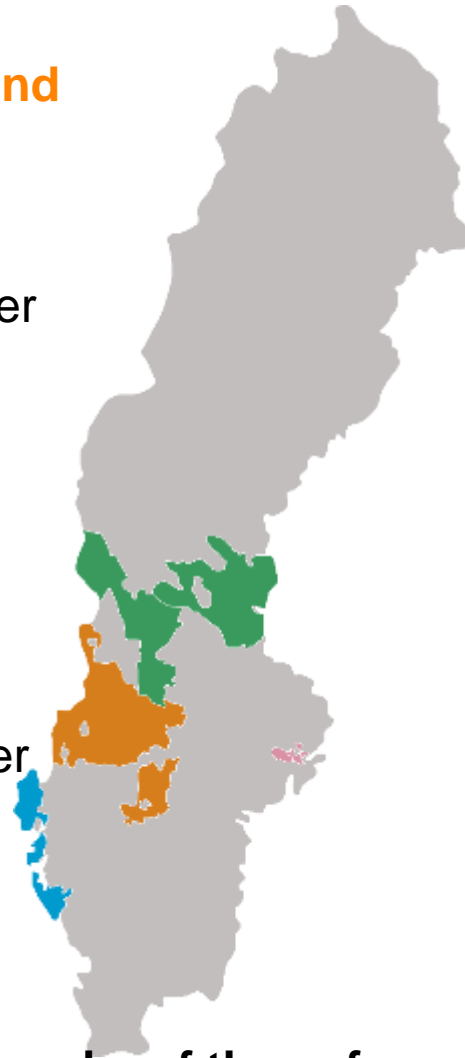

121,000 customers  
13,500 km power lines  
111 meter power lines/customer  
400 jobs

## Dalarna-Södra Norrland

102,000 customers  
14,400 km power lines  
142 meter power lines/customer  
500 jobs

## Stockholm

556,000 customers  
12,800 km power lines  
23 meter power lines/customer  
1,500 jobs

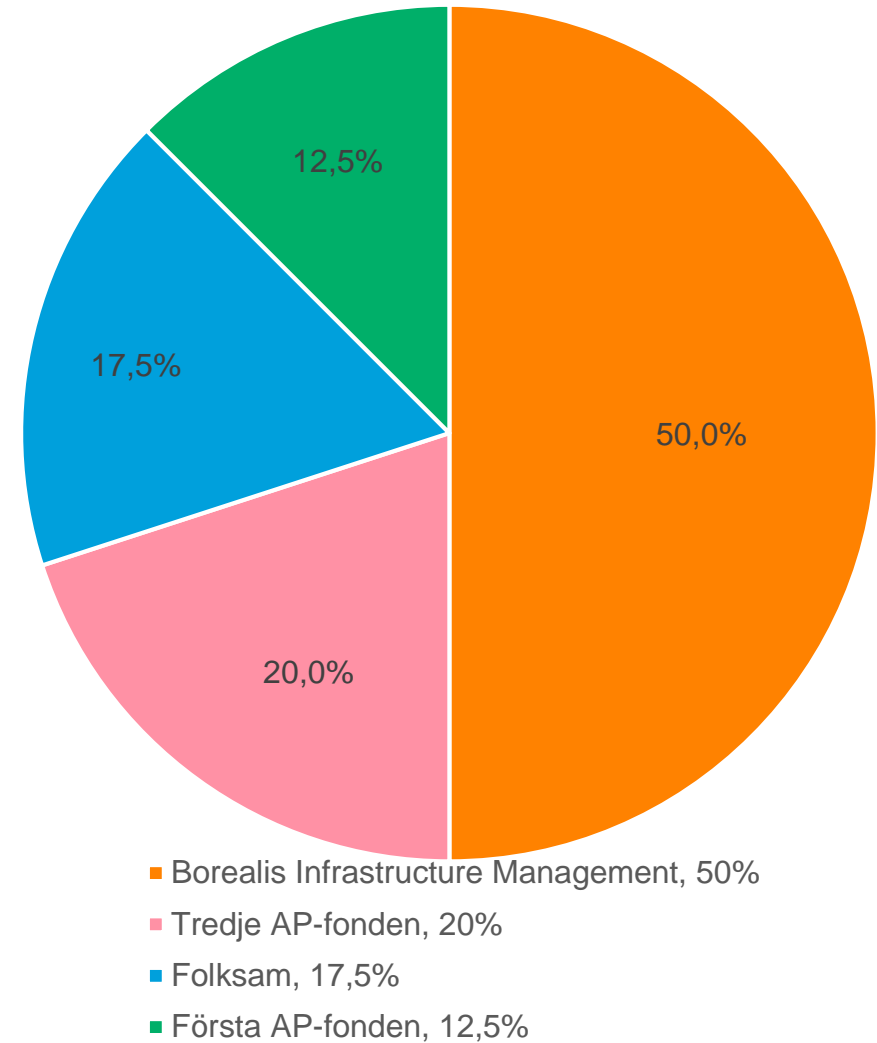

**In addition to the electricity networks of these four distribution areas we also own some 64,000 km regional distribution networks. Both in Stockholm and in rural areas**

# Stable and long-term owners

---

- Third Swedish National Pension Fund: 20%
- Folksam: 17.5%
- First Swedish National Pension Fund: 12.5%
- Borealis Infrastructure Management: 50%

# An exciting future

Strong urbanization continues

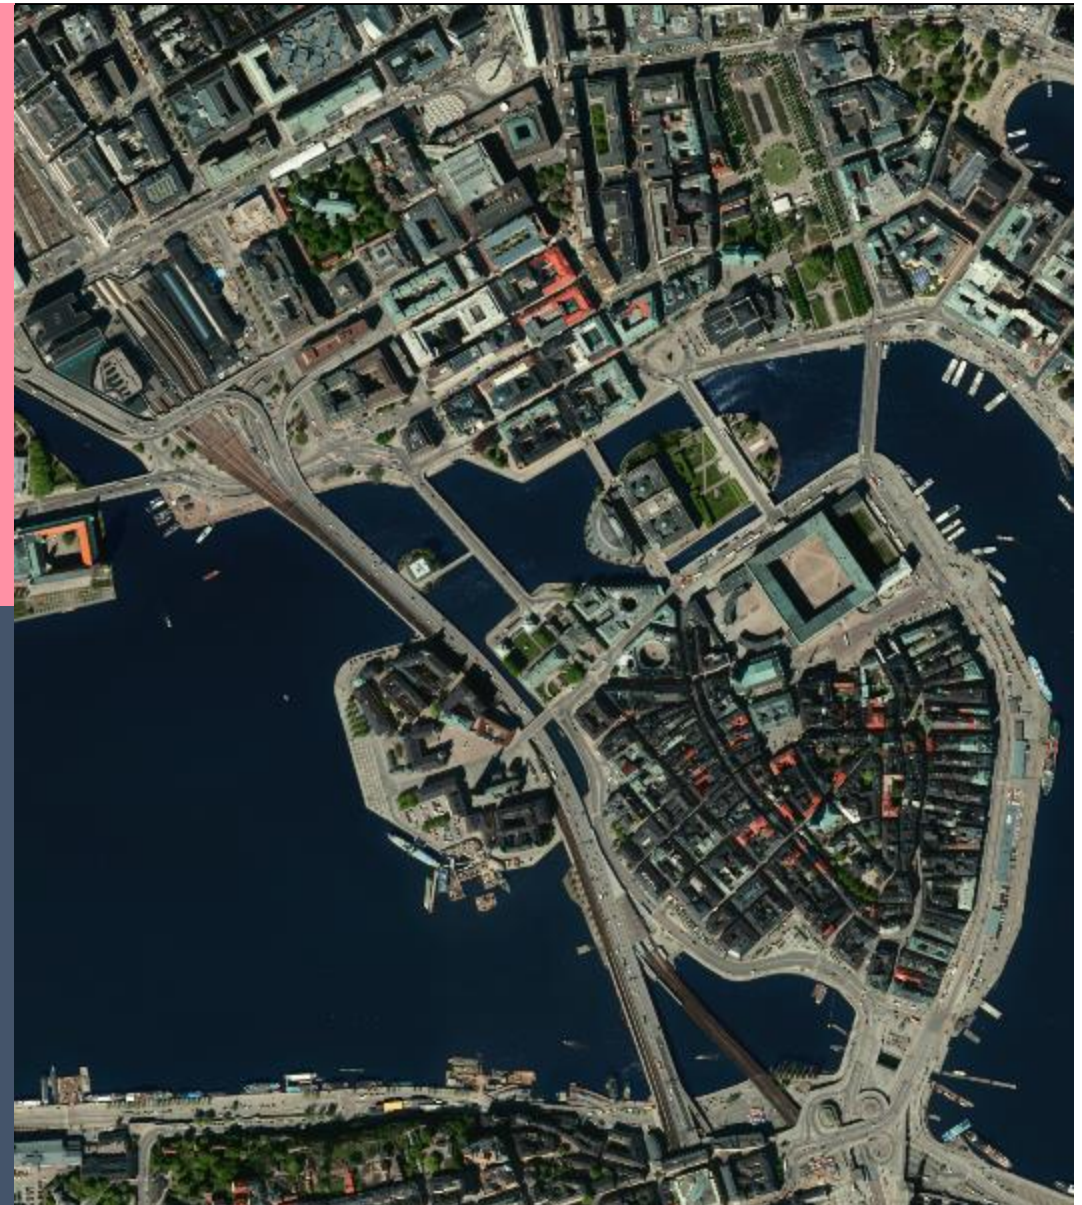

Increasing renewable weather dependent and locally produced electricity

Digitization and electrification of society in general and the transport sector in particular

Reliability increasingly important

**ELLEVIO**

**We bring electricity to you.**
